

ORACLE®**CERTIFICATION PROGRAM****Examination Score Report****metin oktay sozer****Oracle Testing ID: PR0775749**

1Z0-147 Program with PL/SQL

Exam Date: 2/23/2010
Registration: 234368202
Center ID: 57332

Your Score: 68%**Passing Score:** 77%**Result:** Fail

Feedback on your performance is printed below. The report lists the objectives for which you answered a question incorrectly.

- Create a DML trigger
- Create a procedure
- Create a statement level trigger
- Create packages: Create related variables , cursors, constants, exceptions, procedures, and functions
- Define what a stored function is
- Describe how exceptions are propagated
- Describe the cause of a mutating table
- Describe the different types of triggers
- Describe the functionality of the CALL statement
- Describe the use and application of some Oracle server-supplied packages: DBMS_DDL DBMS_JOB SubmitJobs DBMS_OUTPUT UTL_FILE UTL_HTTP and UTL_TCP
- Designate a package construct as either public or private
- Identify and Manage Bfiles: Create directories Use Bfiles Load Bfiles Use Bfilename Function
- Identify persistent states in package variables and cursors
- Identify restrictions on using Packaged functions in SQL statements
- List how to minimize dependency failures
- List the advantages of user-defined functions in SQL statements
- Track procedural dependencies
- Use EXECUTE IMMEDIATE
- Use conditional predicates in a DML trigger
- View dependency information in the dictionary views
- View trigger information in the dictionary views
